

M-Tech MT500 Waterproof DSC VHF Radio

£104.95 inc vat (£87.46 ex VAT)

Description

Extremely competitively priced, the MT-500 is a high specification compact waterproof VHF/DSC radio that is ideal for smaller boats or where ever installation space is at a premium.

Designed with latest Class-D DSC functionality, the MT-500 can also send-request position data to and from friends on other vessels. The received position data can be displayed on a compatible GPS plotter if your plotter is DSC capable.

The large "SELECT/ENT" knob can be rotated and pushed which offers you simple and easy operation for all channel and main menu operations.

The unit can be either bracket mounted on a console or suspended from a cabin roof, or alternatively flush mounted with the flush mounting kit included in the box.
